C-0002-C19.04 REMOVAL OF WATER BOTTOMS (DLA ENERGY FEB 1998)

Storage tanks for DLA Energy use shall be equipped with positive water sumps for removal of all water bottoms. All storage tanks shall be drained of water a minimum of once each week and whenever storage tank gauging indicates water is present. (Weekly water drainage is necessary because the datum plate may not necessarily be the low point in the storage tank. Water could

possibly accumulate below the datum plate and not show up in the gauging process.) Additionally, all storage tanks shall be drained of water prior to any transfer of fuel and after a minimum of 4 hours or maximum of 24 hours settling time following each product receipt. Storage tanks equipped with floating roofs shall be gauged for water after each rain and drained if water is found present. Product and water levels shall be gauged before and after the draining of water. Water gauges of each storage tank shall be taken and recorded each time it is gauged for product. (Each storage tank shall be equipped with a fuel/water separation system for collection of all product or water dispensed from its bottom water drain(s). This system shall have the capability to return separated product back into the same storage tank.)

 - (2) Reduce the contract price to reflect the reduced value of the services performed.
- (f) If the Contractor fails to promptly perform the services again or to take the necessary action to ensure future performance in conformity with contract requirements, the Government may—
 - (1) By contract or otherwise, perform the services and charge to the Contractor any cost incurred by the Government that is directly related to the performance of such service; or
 - (2) Terminate the contract for default.

(a) The Contracting Officer may, at any time, by written order to the Contractor, require the Contractor to stop all, or any part, of the work called for by this contract for a period of 90 days after the order is delivered to the Contractor, and for any further period to which the parties may agree. The order shall be specifically identified as a stop-work order issued under this clause. Upon receipt of the order, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stoppage. Within a period of 90 days after a stop-work is delivered to the Contractor, or within any extension of that period to which the parties shall have agreed, the Contracting Officer shall either --

- (1) Cancel the stop-work order; or
- (2) Terminate the work covered by the order as provided in the Default, or the Termination for Convenience of the Government, clause of this contract.

(b) If a stop-work order issued under this clause is canceled or the period of the order or any extension thereof expires, the Contractor shall resume work. The Contracting Officer shall make an equitable adjustment in the delivery schedule or contract price, or both, and the contract shall be modified, in writing, accordingly, if --

- (1) The stop-work order results in an increase in the time required for, or in the Contractor's cost properly allocable to, the performance of any part of this contract; and
- (2) The Contractor asserts its right to the adjustment within 30 days after the end of the period of work stoppage; provided, that, if the Contracting Officer decides the facts justify the action,

the Contracting Officer may receive and act upon the claim submitted at any time before final payment under this contract.

(c) If a stop-work order is not canceled and the work covered by the order is terminated for the convenience of the Government, the Contracting Officer shall allow reasonable costs resulting from the stop-work order in arriving at the termination settlement.

(d) If a stop-work order is not canceled and the work covered by the order is terminated for default, the Contracting Officer shall allow, by equitable adjustment or otherwise, reasonable costs resulting from the stop-work order.

F-0001-F1.04 GENERAL RECEIVING AND STORING CONDITIONS (DLA ENERGY DEC 2017)

(a) Notice will be furnished to the Contractor of upcoming product receipts. The notice will include the method of receipt, the source, grade, or type of product, and any special instructions.

(b) The Contractor shall transfer and store each grade of product in a manner that preserves the quality of the product and will prevent contamination. The responsibility for preventing contamination rests with the Contractor.

(c) When requested, the Contractor will transfer product between tanks to consolidate like types or grades.

(d) Whenever a product is to be removed from a tank to accomplish cleaning or repair of the tank, or to change product, or to effect the release of the tank to the Contractor, the Contractor shall strip such tank to preclude loss of recoverable fuel. The Contractor shall provide the Quality Assurance Representative (QAR) with information pertaining to the amount of fuel deemed unrecoverable, the reason why the fuel cannot be recovered, and an analysis of the unrecovered fuel quality. All unrecoverable tank bottoms/line fill quantities will be reported to the Property Administrator for disposition instructions. Contaminated/off-specification product will be reported to the QAR in order to obtain disposition instructions. Tanks out of service for repair shall be removed from revenue until such time as they are returned to Government Service. Tanks out of service for cleaning shall be governed by the INSPECTION AND CLEANING OF BULK PETROLEUM STORAGE TANKS contract provision.

(e) Custody of product received by pipeline, and risk of loss thereof, shall pass from the carrier to the Contractor when the product passes the flange connecting the carrier's pipeline and the Contractor's pipeline.

(f) Custody of product received by transport truck, and risk of loss thereof, shall pass from the carrier to the Contractor when the product passes from the transport truck discharge hoses into the Contractor's receiving facilities.

(g) Custody of product received by tank car, and risk of loss thereof, shall pass from the carrier to the Contractor when the tank car comes to rest on the Contractor's siding.

(h) Custody of product received from tanker or barge, and risk of loss thereof, shall pass from the carrier to the Contractor when the fuel passes the vessel's permanent hose connection.

(i) The Contractor shall be held accountable for demurrage charges arising from delay(s) in receipt by tank cars or transport trucks, except when the delay(s) are caused by reason beyond the control and without the fault or negligence of the Contractor and its subcontractors.

(j) The Contractor will prepare and process the following certificate on bond paper when it is

necessary to upgrade or downgrade a product:

I certify that _____ gallons of _____ have been upgraded/downgraded
(quantity) (product)
from _____ to _____. This action was required because
(product) (product)

(enter reason for the action)

Signature of Contractor Representative

I concur with the Contractor's certification.

I do not concur with the Contractor's certification for the following reasons:

Signature of Quality Representative

(A receipt transaction will be reflected on the monthly stock report for the gain in product, with a shipment being reflected for the losing product.)

(k) The following subparagraphs apply only to barges and tankers.

(1) SCHEDULED ARRIVAL DATE AND BASIC ALLOWED LAY TIME.

(i) The Contractor shall be notified in advance of the scheduled arrival date. Each notice will specify the quantity to be delivered, the cargo number, the name of the vessel, and the scheduled arrival date. For tankers, the notice will also include the size of the vessel and the expected time of arrival. For tankers, the notice of delivery will be furnished at least 72 hours in advance of the scheduled arrival date; for barges, at least 48 hours in advance of the scheduled arrival date. The Government will provide the maximum notice practicable when the anticipated vessel transit time from the loading point is less than the 72/48 hours. Changes in the scheduled arrival date that will provide less than the 48 hours' notice for barges and the 72 hours' notice for tankers will require the verbal approval of the Contractor. This verbal approval is to be confirmed in writing as soon as practicable.

(ii) The Contractor shall provide a reachable berth, free of charge, where the vessel can be safely moored and afloat with necessary access thereto as soon as possible, but no later than, for barges, within 3 hours after issue of notice of readiness to unload, and, for tankers, within 6 hours after issue of notice of readiness, PROVIDED --

(A) If the vessel is tendered for unloading on a date earlier than the last agreed scheduled arrival date, the Government's vessel shall be unloaded as soon as possible in its proper turn with other vessels, and lay time shall not commence until the vessel moors alongside or, for barges, 3:00 A.M. local time; for tankers, 6:00 A.M. local time, on the last agreed scheduled arrival date, whichever occurs first.

(B) If the vessel is tendered for unloading later than 12:00 noon of the day following the last scheduled arrival date, the vessel shall be unloaded in its proper turn with other vessels. Lay time shall commence when the vessel moors alongside, provided a good faith effort is made by the Contractor to moor the vessel in its turn with other vessels as loading berths become available.

(iii) Lay time shall commence either (A) at the expiration of the notice period prescribed in subparagraph (ii) above, berth or no berth, or (B) immediately when the vessel moors alongside, with or without notice of readiness, whichever occurs first.

(iv) Lay time, once started, shall continue 24 hours per day, 7 days per week, without interruption, from its commencement until unloading of the barge or tanker is completed and hoses have been disconnected.

(v) Unless otherwise provided in the Schedule, the Contractor shall be allowed and will complete unloading within lay time determined as follows:

(A) FOR BARGES: One hour for each 2,000 barrels of product to be unloaded.

(B) FOR TANKERS: Thirty-six hours of discharge of a full vessel cargo.

When partial vessel cargoes are to be unloaded, the 36 hours will be prorated based on quantities discharged in each port.

(vi) Hoses and loading arms for unloading a barge or tanker will be furnished, connected, and disconnected by the Contractor.

(2) INCREASES TO BASIC ALLOWED LAY TIME.

(i) If, after lay time commences, the conditions or facilities of the barge or tanker to be unloaded do not permit unloading, basic allowed lay time shall be increased by the duration of the delay.

(ii) If the vessel is delayed in reaching its berth and the delay is caused by the fault of the vessel, basic allowed lay time shall be increased by the duration of the delay.

(iii) If the vessel owner's or operator's regulations prohibit unloading at any time after lay time has commenced, the lost time shall be added to the basic allowed lay time.

(iv) If, for any reason, the Contractor is delayed in unloading the barge or tanker because of actions of a Government representative, acting under the contract, that arise through no fault or negligence on the part of the Contractor or its subcontractors, basic allowed lay time shall be increased by the duration of the delay.

(v) There will be no increase to basic allowed lay time (nor other reductions to any resulting demurrage time) for saved lay time arising out of other loadings/discharges.

(vi) Delays, after commencement of lay time, attributed to causes beyond the control and without the fault or negligence of the Contractor or the U.S. Government will result in increasing the basic allowed lay time by one half of the delay time.

(3) PAYMENT OF DEMURRAGE. For all hours of lay time which elapse in excess of the basic allowed lay time for unloading provided for by subparagraph (k)(1)(v), or as otherwise provided in the Schedule, the Contractor shall pay demurrage to the Government as follows:

(i) USS, USNS, OR TIME CHARTERED VESSELS. At the demurrage rate for the vessel loaded computed to the nearest whole hour as published by the Military Sealift Command and in effect on the date the loading of the vessel is completed.

(ii) VOYAGE CHARTERED VESSELS. At the demurrage rate cited in the charter, except that the demurrage payable by the Contractor shall in no event exceed the demurrage expense incurred by the Government under the Charter.

F-0002-F1.05 GENERAL SHIPPING CONDITIONS (DLA ENERGY OCT 1997)

(a) The Contractor will prepare the inspection and shipment documents covering deliveries made from the terminal in accordance with instructions contained in the Documentation and Product Property Control Plan. Normally, the document will consist of DD Form 250 for tank car, tank truck, pipeline, and packaged shipments, and DD Form 250-1 and ullage/innage reports in the case of barge and tanker shipments. The Contractor will distribute the DD Forms 250 and the Quality Representative (QR) will distribute the DD Forms 250-1. When the QR is not present for release or shipment of product inspected at these facilities, and the Contractor's quality control program has been approved by the responsible Government Quality Office in accordance with paragraph 246.471 of the DOD FAR Supplement, the Contractor will insert the following certification on the inspector's copy of the shipping documents:

"I certify that the above supplies were (a) in the quantity indicated, (b) taken from Government-owned and approved stocks and (c) loaded into inspected and approved containers. This shipment was released in accordance with paragraph 246.471-2 of the DoD FAR Supplement under authorization of (NAME and TITLE OF THE AUTHORIZED REPRESENTATIVE OF THE CONTRACT ADMINISTRATION OFFICE) in a letter dated (DATE OF AUTHORIZING LETTER). (SIGNATURE AND TITLE OF CONTRACTOR'S DESIGNATED REPRESENTATIVE)."

(b) Shipment of products hereunder will be made only pursuant to a "release" furnished by the Product Property Administrator or his designated representative. The "release" will indicate the consignees who are authorized to issue "calls" or "orders" for shipment of product. Such "release" will be periodically furnished to the Contractor by the cognizant Product Property Administrator.

(c) Conveyances required for shipments shall be furnished or designated by the Government. The Contractor shall inspect all shipping conveyances prior to loading to insure that product loaded will not be lost or contaminated by the condition of the equipment. Tank truck inspection must be performed by qualified Contractor personnel. Delegation of this responsibility shall not be passed to the tank truck operator/driver. The tank truck operator/driver may be permitted to physically load the tank truck; however, the loading operation must be under the surveillance and direction of Contractor personnel. Equipment found to be unsatisfactory shall be reported as follows: (1) TANKERS AND BARGES. Report immediately by telephone to the QR; if not present, the master of the tanker or barge or to the carrier's agent or general office; (2) TANK CARS. Report to the QR and by wire (Government Rate, Collect) to Commander, Eastern Area, Military Traffic Management Command, ATTN: MTE-INR-O, Brooklyn, NY 11250. Any shortage or overage of tank cars shall be similarly reported; (3) TRANSPORT TRUCKS. Contractor shall expeditiously report to the Traffic Manager of the appropriate Defense Fuel Region, Government QR, and to the carrier's terminal where equipment is domiciled.

(d) Except when loading barges or tankers, or making pipeline deliveries, strainers of 100 mesh or finer shall be utilized in loading aviation fuels, jet lubricating oil, and 60 mesh or finer in the case of reciprocating engine oil. Strainers shall be located as near the loading point as

practicable. Contractor shall furnish, periodically inspect, clean such strainers, and repair same, if necessary, keeping a written record thereof.

(e) Contractor shall affix serially numbered seals to the dome covers of tank cars and all openings in the case of tank trucks in such a manner that entry could only be gained by breaking a seal. The Contractor will furnish such seals. Seal numbers will be indicated on shipping documents.

(f) Placards, as required by 49 CFR 172.506 and 49 CFR 172.508, shall be furnished and affixed to all tank cars and tank trucks by Contractors unless placards are already affixed.

(g) FOR TANK CARS ONLY.

(1) If Government-owned or leased tank cars are furnished, the Contractor will maintain records showing each day a car is received or forwarded by car number and will furnish the information to the Defense Fuel Regional Office upon request.

(2) Bottom outlet gaskets and manway cover gaskets, when required due to deterioration or loss, shall be furnished and applied to tank cars by the Contractor.

(3) The Contractor shall (i) inspect empty Government-owned tank cars located on the Contractor's premises and (ii) ship tank cars located on the Contractor's premises to repair facilities as directed by the Government.

(h) Unless otherwise directed, the Contractor shall prepare and distribute Government bills of lading utilized in shipments. Such bills of lading, routing instructions, and transportation assistance will be furnished by the Defense Fuel Region placing orders.

(i) The Contractor shall comply with routing instructions furnished by the Government. Such instruction will include names, routes, route order numbers, and other pertinent information. The Contractor shall be responsible for scheduling of commercial transport trucks, trucks and trailer, and tank wagons to its plant in accordance with such routing instructions and consonant with the applicable order. The Contractor shall provide sufficient advance notice to carriers and schedule the carrier's equipment for loading. The Contractor shall reimburse the Government for any demurrage incurred as a result of improper scheduling.

(j) Custody of product shipped by pipeline, and risk of loss thereof, shall pass from the Contractor to the carrier when the product passes the flange connecting the Contractor's pipeline and the carrier's pipeline.

(k) Custody of product shipped by transport truck, and risk of loss thereof, shall pass from the Contractor to the carrier when the loaded transport truck is released for shipment by the Contractor.

(l) Custody of product shipped by tank car, and risk of loss thereof, shall pass from the Contractor to the carrier when the loaded tank car is picked up by the carrier.

(m) Custody of product delivered to tanker or barge, and risk of loss thereof, shall pass from the Contractor to the carrier when the fuel passes the vessel's permanent hose connection.

(n) The Contractor shall be held accountable for demurrage charges arising from delay(s) in shipment by tank cars and transport trucks except when those delays are caused by reasons beyond the control and without the fault or negligence of the Contractor and its subcontractors.

(o) The following subparagraphs only apply to barges and tankers.

(1) SCHEDULED ARRIVAL DATE AND BASIC ALLOWED LAY TIME.

(i) Notice shall be furnished to the Contractor in advance of the date on which loading is to be made, which date is hereinafter referred to as the "Scheduled Arrival Date." Each notice will specify the quantity to be loaded, the cargo number, and name of the vessel and the scheduled loading date. For tankers, notice will also include the size of the vessel and the expected time of arrival. Notice of delivery will be furnished at least 72 hours in advance of the scheduled arrival date for tankers, and at least 48 hours in advance of the scheduled arrival date for barges. When anticipated vessel transit time to the loading point is less than 72/48 hours, the Government will provide the maximum notice practicable. Any change in the scheduled arrival date of less than 48 hours' notice for barges and 72 hours' notice for tankers will require verbal approval of the Contractor, confirmed in writing.

(ii) The Contractor shall provide as soon as possible, but within 3 hours after issue of notice of readiness to load from a barge and within 6 hours after the Contractor receives notice of readiness to load from a tanker, a reachable berth, free of cost to the Government, where the vessel can be safely moored and afloat with necessary access thereto PROVIDED, however --

(A) If the vessel is tendered for loading on a date earlier than the last agreed scheduled arrival date, the Government's vessel shall be loaded as soon as possible in its proper turn with other vessels, and lay time shall not commence until the vessel moors alongside or, for barges, 3:00 A.M. local time; for tankers, 6:00 A.M. local time, on the last agreed scheduled arrival date, whichever occurs first.

(B) If the vessel is tendered for loading later than 12:00 noon of the day following the last scheduled arrival date, the vessel shall be loaded in its proper turn with other vessels. Lay time shall commence when the vessel moors alongside, provided a good faith effort is made by the Contractor to moor the vessel in its turn with other vessels as loading berths become available. If the vessel is not moored in its proper turn with other vessels, lay time will commence at 6:00 A.M. on the date the Government vessel's turn occurred.

(iii) Lay time shall commence either (A) at the expiration of the notice period prescribed in subparagraph (ii) above, berth or no berth, or (B)

immediately when the vessel moors alongside, with or without notice of readiness, whichever occurs first.

(iv) Lay time, once started, shall continue 24 hours per day, 7 days per week, without interruption, from its commencement until loading of the barge or tanker is completed and hoses have been removed.

(v) Unless otherwise provided in the Schedule, the Contractor shall be allowed and will complete unloading within lay time determined as follows:

(A) **FOR BARGES:** One hour for each 2,000 barrels of product to be loaded.

(B) **FOR TANKERS:** Thirty-six hours for load of full vessel cargo. When partial vessel cargoes are to be loaded, the 36 hours will be prorated based on quantities loaded by each supplier. The 36 hours includes allowances for routine events that occur in the loading process, such as cushioning and topping off of vessel tanks.

(vi) Hoses and loading arms for loading shall be furnished, connected, and disconnected by the Contractor.

(2) INCREASES TO BASIC ALLOWED LAY TIME.

(i) If, after lay time commences, the conditions or facilities of the barge or tanker to be loaded do not permit loading, basic allowed lay time shall be increased by the duration of the delay.

(ii) If the vessel is delayed in reaching its berth and the delay is caused by the fault of the vessel, basic allowed lay time shall be increased by the duration of the delay.

(iii) After lay time commences, when vessels are required to dock at anchorage due to vessel delays such as vessel inspection and inserting, lay time credit will be allowed for transit time from anchors away at anchorage until first line ashore berthing, not to exceed 2 hours.

(iv) If regulations of the owner or operator of the vessel prohibit loading at any time after lay time has commenced, time so lost shall be added to basic allowed lay time.

(v) If, for any reason, the Contractor is delayed in loading the barge or tanker because of actions of a Government representative, acting under the contract, that arise through no fault or negligence on the part of the Contractor or its subcontractors, basic allowed lay time shall be increased by the duration of the delay.

(vi) There will be no increase to basic allowed lay time (nor other reductions to any resulting demurrage time) for saved lay time arising out of other

loadings/discharges.

(vii) Delays, after commencement of lay time, attributed to causes beyond the control and without the fault or negligence of the Contractor or the U.S. Government will result in increasing the basic allowed lay time by one half of the delay time.

(3) **PAYMENT OF DEMURRAGE.** For all hours of lay time which elapse in excess of the basic allowed lay time for loading provided for by paragraph (1) above, or as otherwise provided in the Schedule, the Contractor shall pay demurrage to the Government as follows:

(i) **USS, USNS, OR TIME CHARTERED VESSELS.** At the demurrage rate for the vessel loaded computed to the nearest whole hour as published by the Military Sealift Command and in effect on the date the loading of the vessel is completed.

(ii) **VOYAGE CHARTERED VESSELS.** At the demurrage rate cited in the charter, except that the demurrage payable by the Contractor shall in no event exceed the demurrage expense incurred by the Government under the Charter.

F-0003-F1.11 DLA INTERNET BID BOARDS SYSTEM (DIBBS)(DLA ENERGY APR 2014)

(a) Contractor Registration. Contractors must register in DIBBS to obtain a login account at <https://www.dibbs.bsm.dla.mil>. The login account will allow a contractor to register a primary and alternate email address for notifications. Contractors are strongly encouraged to establish a group email address for the primary email address for the contractor's authorized point of contacts. The registered email addresses will be the only email used by the government to make notifications.

(b) All contractors must have an active System for Award Management (SAM) account, <http://www.sam.gov> in order to register for DIBBS.

(c) The Contractor shall use DIBBS to receive orders. DLA Energy will not be using DIBBS receipt of quotes capability. All quotations, proposals, bids shall be submitted in accordance with the terms and conditions of the solicitation.

(d) Preparation and Transmission of Orders

(1) The Government may issue an order for a specific delivery or a series of deliveries (e.g., several deliveries during a week). The Government may also elect to issue an order covering a longer period (including monthly orders) and make periodic calls against these orders designating specific delivery dates, times, and quantities.

(2) Only a DLA Energy warranted Contracting Officer can issue an order, either orally or in writing, against a contract. An oral order issued by the warranted Contracting Officer shall provide the required advance notice to the Contractor and the following information: **Interim order number**; contract number; item number; ceiling price; quantity; delivery location; and the

required delivery and/ or service date.

(i) For all product orders, the Contractor will receive an electronically signed written order via DIBBS, within 24 hours or one business day after the warranted Contracting Officer issues an oral order.

(ii) For all service orders, the Contractor will receive an electronically signed written order via DIBBS, within five business days after issuing the oral order.

(iii) Interim order number is subject to change once the electronically signed written order is received by the contractor. The order number on the written order will take precedence over the interim order number, if different.

(iv) Regardless of the unit price cited on the written order, the office designated to make payments on the written order will pay the applicable unit price in effect under the terms and conditions of the contract.

(v) Once the order has been issued, an email will be sent to the Contractor to provide notice that the order is available on the contract-specific web page. The order will also be submitted to the payment office.

(3) Calls against previously issued orders must be confirmed in writing within 24 hours or one business day via email message. The email confirmation will reference the previously issued order number and item number and designate specific delivery location, dates, and quantity to be delivered against that order.

(4) The Contractor's nonreceipt of a written or electronic confirmation of an oral order or oral call against a written or electronic order does not relieve the Contractor from its obligation to perform in accordance with the oral order or oral call against a written or electronic order. The Contractor should contact the DLA Energy Contracting Officer if problems are experienced with receipt of the electronic or written confirmation.

F-0004-F1.14 DETERMINATION OF QUANTITY (STORAGE)(DLA ENERGY NOV 1997)

The total gallonage received into or shipped from the Contractor's facilities shall be determined as follows:

(a) **RECEIPTS OR SHIPMENTS OF CRUDE AND FUELS OTHER THAN RESIDUAL FUELS** (by transport truck of 3500 gallons or less) (truck and trailer combination when delivering same product will be considered as one container or conveyance). On an actual gallonage basis, without temperature correction.

(b) **RECEIPTS OR SHIPMENTS OF RESIDUAL FUELS** (in excess of 3500 gallons of crude or other fuels by tank car or transport truck). On a gallonage basis corrected to 60°F.

(c) **RECEIPTS OR SHIPMENTS BY TANKER OR BARGE OR PIPELINE.** On a gallonage basis corrected to 60°F. Quantities shipped or received will be determined on the basis of shore tanks or tender gauges taken by the Contractor and authenticated by the Quality Representative (QR). The ship or carrier's representative may participate in these determinations. During the gauging of shore tanks, the tanker, barge, or carrier's representative may participate in the quantity determinations, and, in the case of tanker/barge shipments or receipts, the Contractor may participate in the operations on board the tanker or barge which are required to determine the quantity of product in the tanker or barge cargo tanks.

(d) In the case of receipts, the Contractor shall sign the bill of lading and other related documents for the actual quantity received as determined above. When requested by the QR, the Contractor shall investigate losses or gains in connection with receipts or shipments to determine if the cause is at the Contractor's facility.

(e) **MEASUREMENT STANDARDS.** All measurements and calibrations made to determine quantity shall be in accordance with the most recent edition of the API Manual of Petroleum Measurement Standards (MPMS). Outside the United States, other technically equivalent national or international standards may be used. In addition, the following specific standards will be the referee method.

(1) **API MPMS Chapter 11.1, Volume Correction Factors (API 2540/ASTM D 1250/IP 200/ISO 91-1).** Either the printed version or the computer subroutine version of the standard may be used. In case of disputes, the computer subroutine will be the referee method.

(i) For crude oils, JP4 and Jet B, use Volume I, Tables 5A and 6A (or Volume VII Tables 53A and 54A).

(ii) For lubricating oils, use Volume XIII, Tables 5D and 6D (or Volume XIV, Tables 53D and 54D).

(iii) For all other fuels and fuel oils, use Volume II, Tables 5B and 6B (or Volume VIII, Tables 53B and 54B).

(iv) For chemicals/additives, use Volume III, Table 6C (or Volume IX, Table 54C), or volume correct in accordance with the product specification.

(v) Volume XII, Table 52, shall be used to convert cubic meter at 15 degrees Centigrade to barrels at 60 degrees Fahrenheit. Convert liters at 15 degrees Centigrade to cubic meters at 15 degrees Centigrade by dividing by 1,000. Convert gallons at 60 degrees Fahrenheit to barrels at 60 degrees Fahrenheit by dividing by 42. Should foreign law restrict conversion by this method, the method required by law shall be stated in the offer.

(vi) If the original measurement is by weight and quantity is required in U.S. gallons, then--

(A) Volume XII, Table 58, shall be used to convert metric tons to U.S. gallons at

60 degrees Fahrenheit. Convert kilograms to metric tons by dividing by 1,000.

(B) Volume XI, Table 8, shall be used to convert pounds to U.S. gallons at 60 degrees Fahrenheit.

(1) All payments by the Government under this contract, shall be made by electronic funds transfer (EFT), except as provided in paragraph (a)(2) of this clause. As used in this clause, the term “EFT” refers to the funds transfer and may also include the payment information transfer.

(2) In the event the Government is unable to release one or more payments by EFT, the Contractor agrees to either--

(i) Accept payment by check or some other mutually agreeable method of payment; or

(ii) Request the Government to extend the payment due date until such time as the Government can make payment by EFT (but see paragraph (d) of this clause).

(b) *Contractor's EFT information.* The Government shall make payment to the Contractor using the EFT information contained in the System for Award Management (SAM). In the event that the EFT information changes, the Contractor shall be responsible for providing the updated information to the SAM.

(c) *Mechanisms for EFT payment.* The Government may make payment by EFT through either the Automated Clearing House (ACH) network, subject to the rules of the National Automated Clearing House Association, or the Fedwire Transfer System. The rules governing Federal payments through the ACH are contained in 31 CFR part 210.

(d) *Suspension of payment.* If the Contractor's EFT information in the SAM is incorrect, then the Government need not make payment to the Contractor under this contract until correct EFT information is entered into the SAM; and any invoice or contract financing request shall be deemed not to be a proper invoice for the purpose of prompt payment under this contract. The prompt payment terms of the contract regarding notice of an improper invoice and delays in accrual of interest penalties apply.

(e) *Liability for uncompleted or erroneous transfers.*

(1) If an uncompleted or erroneous transfer occurs because the Government used the Contractor's EFT information incorrectly, the Government remains responsible for--

(i) Making a correct payment;

(ii) Paying any prompt payment penalty due; and

(iii) Recovering any erroneously directed funds.

(2) If an uncompleted or erroneous transfer occurs because the Contractor's EFT information was incorrect, or was revised within 30 days of Government release of the EFT payment transaction instruction to the Federal Reserve System, and--

(i) If the funds are no longer under the control of the payment office, the Government is deemed to have made payment and the Contractor is responsible for recovery of any erroneously directed funds; or

(ii) If the funds remain under the control of the payment office, the Government shall not make payment, and the provisions of paragraph (d) of this clause shall apply.

(f) *EFT and prompt payment.* A payment shall be deemed to have been made in a timely manner in accordance with the prompt payment terms of this contract if, in the EFT payment transaction instruction released to the Federal Reserve System, the date specified for settlement of the payment is on or before the prompt payment due date, provided the specified payment date is a valid date under the rules of the Federal Reserve System.

(g) *EFT and assignment of claims.* If the Contractor assigns the proceeds of this contract as provided for in the assignment of claims terms of this contract, the Contractor shall require as a condition of any such assignment, that the assignee shall register separately in the SAM and shall be paid by EFT in accordance with the terms of this clause. Notwithstanding any other requirement of this contract, payment to an ultimate recipient other than the Contractor, or a financial institution properly recognized under an assignment of claims pursuant to Subpart 32.8, is not permitted. In all respects, the requirements of this clause shall apply to the assignee as if it were the Contractor. EFT information that shows the ultimate recipient of the transfer to be other than the Contractor, in the absence of a proper assignment of claims acceptable to the Government, is incorrect EFT information within the meaning of paragraph (d) of this clause.

(h) *Liability for change of EFT information by financial agent.* The Government is not liable for errors resulting from changes to EFT information made by the Contractor's financial agent.

(i) *Payment information.* The payment or disbursing office shall forward to the Contractor available payment information that is suitable for transmission as of the date of release of the EFT instruction to the Federal Reserve System. The Government may request the Contractor to designate a desired format and method(s) for delivery of payment information from a list of formats and methods the payment office is capable of executing. However, the Government does not guarantee that any particular format or method of delivery is available at any particular payment office and retains the latitude to use the format and delivery method most convenient to the Government. If the Government makes payment by check in accordance with paragraph (a) of this clause, the Government shall mail the payment information to the remittance address contained in the SAM.

SECTION I – CONTRACT CLAUSES

FAR 52.202-1 DEFINITIONS (NOV 2013)

When a solicitation provision or contract clause uses a word or term that is defined in the Federal Acquisition Regulation (FAR), the word or term has the same meaning as the definition in FAR 2.101 in effect at the time the solicitation was issued, unless--

- (a) The solicitation, or amended solicitation, provides a different definition;
- (b) The contracting parties agree to a different definition;
- (c)

The part, subpart, or section of the FAR where the provision or clause is prescribed provides a different meaning; or

- (d) The word or term is defined in FAR Part 31, for use in the cost principles and procedures.

FAR 52.203-3 GRATUITIES (APR 1984)

(a) The right of the Contractor to proceed may be terminated by written notice if, after notice and hearing, the agency head or a designee determines that the Contractor, its agent, or another representative --

(1) Offered or gave a gratuity (e.g., an entertainment or gift) to an officer, official, or employee of the Government; and

(2) Intended, by the gratuity, to obtain a contract or favorable treatment under a contract.

(b) The facts supporting this determination may be reviewed by any court having lawful jurisdiction.

(c) If this contract is terminated under paragraph (a) of this clause, the Government is entitled --

(1) To pursue the same remedies as in a breach of the contract; and

(2) In addition to any other damages provided by law, to exemplary damages of not less than 3 nor more than 10 times the cost incurred by the Contractor in giving gratuities to the person concerned, as determined by the agency head or a designee. (This subparagraph (c)(2) is applicable only if this contract uses money appropriated to the Department of Defense.)

(d) The rights and remedies of the Government provided in this clause shall not be exclusive and are in addition to any other rights and remedies provided by law or under this contract.

FAR 52.203-6 RESTRICTIONS ON SUBCONTRACTOR SALES TO THE GOVERNMENT (SEP 2006) ALT I (OCT 1995)

(a) Except as provided in (b) of this clause, the Contractor shall not enter into any agreement with an actual or prospective subcontractor, nor otherwise act in any manner, which has or may have the effect of restricting sales by such subcontractors directly to the Government of any item or process (including computer software) made or furnished by the subcontractor under this contract or under any follow-on production contract.

(b) The prohibition in paragraph (a) of this clause does not preclude the Contractor from asserting rights that are otherwise authorized by law or regulation. For acquisitions of commercial items, the prohibition in paragraph (a) applies only to the extent that any agreement restricting sales by subcontractors results in the Federal Government being treated differently from any other prospective purchaser for the sale of the commercial item(s).

(c) The Contractor agrees to incorporate the substance of this clause, including this paragraph (c), in all subcontracts under this contract which exceed the simplified acquisition threshold.

FAR 52.203-12 LIMITATION ON PAYMENTS TO INFLUENCE CERTAIN FEDERAL TRANSACTIONS (OCT 2010)

(1) The term *appropriated funds* does not include profit or fee from a covered Federal action.

(2) To the extent the Contractor can demonstrate that the Contractor has sufficient monies, other than Federal appropriated funds, the Government will assume that these other monies were spent for any influencing activities that would be unallowable if paid for with Federal appropriated funds.

(c) *Exceptions.* The prohibition in paragraph (b) of this clause does not apply under the following conditions:

(1) *Agency and legislative liaison by Contractor employees.*

(i) Payment of reasonable compensation made to an officer or employee of the Contractor if the payment is for agency and legislative liaison activities not directly related to this contract. For purposes of this paragraph, providing any information specifically requested by an agency or Congress is permitted at any time.

(ii) Participating with an agency in discussions that are not related to a specific solicitation for any covered Federal action, but that concern—

(A) The qualities and characteristics (including individual demonstrations) of the person's products or services, conditions or terms of sale, and service capabilities; or

(ii) Any reasonable payment to a person, other than an officer or employee of a person requesting or receiving a covered Federal action or an extension, continuation, renewal, amendment, or modification of a covered Federal action if the payment is for professional or technical services rendered directly in the preparation, submission, or negotiation of any bid, proposal, or application for that Federal action or for meeting requirements imposed by or pursuant to law as a condition for receiving that Federal action. Persons other than officers or employees of a person requesting or receiving a covered Federal action include consultants and trade associations.

An imposition of a civil penalty does not prevent the Government from seeking any other remedy that may be applicable.

(2) Contractors may rely without liability on the representation made by their subcontractors in the certification and disclosure form.

(f) *Cost allowability.* Nothing in this clause makes allowable or reasonable any costs which would otherwise be unallowable or unreasonable. Conversely, costs made specifically unallowable by the requirements in this clause will not be made allowable under any other provision.

(g) *Subcontracts.*

(1) The Contractor shall obtain a declaration, including the certification and disclosure in paragraphs (c) and (d) of the provision at FAR [52.203-11](#), Certification and Disclosure Regarding Payments to Influence Certain Federal Transactions, from each person requesting or receiving a subcontract exceeding \$150,000 under this contract. The Contractor or subcontractor that awards the subcontract shall retain the declaration.

Contracting Officer within 30 days a copy of all disclosures. Each subcontractor certification shall be retained in the subcontract file of the awarding Contractor.

(i) In the subcontractor's preceding fiscal year, the subcontractor received—

(A) 80 percent or more of its annual gross revenues from Federal contracts (and subcontracts), loans, grants (and subgrants), cooperative agreements, and other forms of Federal financial assistance; and

(B) \$25,000,000 or more in annual gross revenues from Federal contracts (and subcontracts), loans, grants (and subgrants), cooperative agreements and other forms of Federal financial assistance; and

(ii) The public does not have access to information about the compensation of the executives through periodic reports filed under section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m(a), 78o(d)) or section 6104 of the Internal Revenue Code of 1986. If FPDS information is incorrect, the contractor should notify the contracting officer. If the SAM information is incorrect, the contractor is responsible for correcting this information.

FAR 52.204-13 SYSTEM FOR AWARD MANAGEMENT MAINTENANCE (Oct 2018)

(a) *Definition.* As used in this clause--

“Electronic Funds Transfer (EFT) indicator” means a four-character suffix to the unique entity identifier. The suffix is assigned at the discretion of the commercial, nonprofit, or Government entity to establish additional System for Award Management (SAM) records for identifying alternative EFT accounts (see subpart 32.11) for the same entity.

“Registered in the System for Award Management (SAM)” means that—

- (1) The Contractor has entered all mandatory information, including the unique entity identifier and the EFT indicator (if applicable), the Commercial and Government Entity (CAGE) code, as well as data required by the Federal Funding Accountability and Transparency Act of 2006 (see subpart 4.14), into the SAM;
- (2) The Contractor has completed the Core, Assertions, Representations and Certifications, and Points of Contact sections of the registration in the SAM;
- (3) The Government has validated all mandatory data fields, to include validation of the Taxpayer Identification Number (TIN) with the Internal Revenue Service (IRS). The Contractor will be required to provide consent for TIN validation to the Government as a part of the SAM registration process; and
- (4) The Government has marked the record “Active”.

“System for Award Management (SAM)” means the primary Government repository for prospective Federal awardee and Federal awardee information and the centralized Government system for certain contracting, grants, and other assistance-related processes. It includes—

- (1) Data collected from prospective Federal awardees required for the conduct of business with the Government;
- (2) Prospective contractor-submitted annual representations and certifications in accordance with FAR subpart 4.12; and
- (3) Identification of those parties excluded from receiving Federal contracts, certain subcontracts, and certain types of Federal financial and non-financial assistance and benefits.

“Unique entity identifier” means a number or other identifier used to identify a specific commercial, nonprofit, or Government entity. See www.sam.gov for the designated entity for establishing unique entity identifiers.

(b) If the solicitation for this contract contained the provision 52.204-7 with its Alternate I, and the Contractor was unable to register prior to award, the Contractor shall be registered in SAM

within 30 days after award or before three days prior to submission of the first invoice, whichever occurs first.

(c) The Contractor shall maintain registration in SAM during contract performance and through final payment of any contract, basic agreement, basic ordering agreement, or blanket purchasing agreement. The Contractor is responsible for the currency, accuracy and completeness of the data within SAM, and for any liability resulting from the Government's reliance on inaccurate or incomplete data. To remain registered in SAM after the initial registration, the Contractor is required to review and update on an annual basis, from the date of initial registration or subsequent updates, its information in SAM to ensure it is current, accurate and complete. Updating information in SAM does not alter the terms and conditions of this contract and is not a substitute for a properly executed contractual document.

(d)

(1)

(i) If a Contractor has legally changed its business name or ``doing business as'' name (whichever is shown on the contract), or has transferred the assets used in performing the contract, but has not completed the necessary requirements regarding novation and change-of-name agreements in subpart 42.12, the Contractor shall provide the responsible Contracting Officer a minimum of one business day's written notification of its intention to--

(A) Change the name in the SAM;

(B) Comply with the requirements of subpart 42.12 of the FAR; and

(C) Agree in writing to the timeline and procedures specified by the responsible Contracting Officer. The Contractor shall provide with the notification sufficient documentation to support the legally changed name.

(ii) If the Contractor fails to comply with the requirements of paragraph (d)(1)(i) of this clause, or fails to perform the agreement at paragraph (d)(1)(i)(C) of this clause, and, in the absence of a properly executed novation or change-of-name agreement, the SAM information that shows the Contractor to be other than the Contractor indicated in the contract will be considered to be incorrect information within the meaning of the "Suspension of Payment" paragraph of the electronic funds transfer (EFT) clause of this contract.

(2) The Contractor shall not change the name or address for EFT payments or manual payments, as appropriate, in the SAM record to reflect an assignee for the purpose of assignment of claims (see FAR subpart 32.8, Assignment of Claims). Assignees shall be separately registered in SAM. Information provided to the Contractor's SAM record that indicates payments, including those made by EFT, to an ultimate recipient other than that

Contractor will be considered to be incorrect information within the meaning of the “Suspension of Payment” paragraph of the EFT clause of this contract.

(3) The Contractor shall ensure that the unique entity identifier is maintained with the entity designated at www.sam.gov for establishment of the unique entity identifier throughout the life of the contract. The Contractor shall communicate any change to the unique entity identifier to the Contracting Officer within 30 days after the change, so an appropriate modification can be issued to update the data on the contract. A change in the unique entity identifier does not necessarily require a novation be accomplished.

(e) Contractors may obtain additional information on registration and annual confirmation requirements at <https://www.sam.gov>.

(a) *Definition.* As used in this clause—

This type of code is known as the NATO CAGE (NCAGE) code.

(b) Contractors shall ensure that the CAGE code is maintained throughout the life of the contract. For contractors registered in the System for Award Management (SAM), the DLA Commercial and Government Entity (CAGE) Branch shall only modify data received from SAM in the CAGE master file if the contractor initiates those changes via update of its SAM registration. Contractors undergoing a novation or change-of-name agreement shall notify the contracting officer in accordance with subpart 42.12. The contractor shall communicate any change to the CAGE code to the contracting officer within 30 days after the change, so that a modification can be issued to update the CAGE code on the contract.

(c) Contractors located in the United States or its outlying areas that are not registered in SAM shall submit written change requests to the DLA Commercial and Government Entity (CAGE) Branch. Requests for changes shall be provided at <https://cage.dla.mil>. Change requests to the CAGE master file are accepted from the entity identified by the code.

(d) Contractors located outside the United States and its outlying areas that are not registered in SAM shall contact the appropriate National Codification Bureau (points of contact available at

<http://www.nato.int/structur/AC/135/main/links/contacts.htm>) or NSPA at <https://eportal.nspa.nato.int/AC135Public/scage/CageList.aspx>.

(e) Additional guidance for maintaining CAGE codes is available at <https://cage.dla.mil>.

(ii) Reimbursed.

(d)

(1) Except as provided in subparagraph (d)(2) of this clause, the contract price shall be increased by the amount of any after-imposed tax or of any tax or duty specifically excluded from the contract price by a provision of this contract that the Contractor is required to pay or bear, including any interest or penalty, if the Contractor states in writing that the contract price does not include any contingency for such tax and if liability for such tax, interest, or penalty was not incurred through the Contractor’s fault, negligence, or failure to follow instructions of the Contracting Officer or to comply with the provisions of paragraph (i) below.

(2) The contract price may not be increased to offset taxes imposed under 26 U.S.C. 5000C.

(e) The contract price shall be decreased by the amount of any after-relieved tax, including any interest or penalty. The Government of the United States shall be entitled to interest received by the Contractor incident to a refund of taxes to the extent that such interest was earned after the Contractor was paid by the Government of the United States for such taxes. The Government of the United States shall be entitled to repayment of any penalty refunded to the Contractor to the extent that the penalty was paid by the Government.

(f) The contract price shall be decreased by the amount of any tax or duty, other than an excepted tax, that was included in the contract and that the Contractor is required to pay or bear, or does

not obtain a refund of, through the Contractor's fault, negligence, or failure to follow instructions of the Contracting Officer or to comply with the provisions of paragraph (i) below.

(g) No adjustment shall be made in the contract price under this clause unless the amount of the adjustment exceeds \$250.

(h) If the Contractor obtains a reduction in tax liability under the United States Internal Revenue Code (Title 26, U.S. Code) because of the payment of any tax or duty that either was included in the contract price or was the basis of an increase in the contract price, the amount of the reduction shall be paid or credited to the Government of the United States as the Contracting Officer directs.

(i) The Contractor shall take all reasonable action to obtain exemption from or refund of any taxes or duties, including interest or penalty, from which the United States Government, the Contractor, any subcontractor, or the transactions or property covered by this contract are exempt under the laws of the country concerned or its political subdivisions or which the governments of the United States and of the country concerned have agreed shall not be applicable to expenditures in such country by or on behalf of the United States.

(j) The Contractor shall promptly notify the Contracting Officer of all matters relating to taxes or duties that reasonably may be expected to result in either an increase or decrease in the contract price and shall take appropriate action as the Contracting Officer directs. The contract price shall be equitably adjusted to cover the costs of action taken by the Contractor at the direction of the Contracting Officer, including any interest, penalty, and reasonable attorneys' fees.

FAR 52.232-39 UNENFORCEABILITY OF UNAUTHORIZED OBLIGATIONS (JUN 2013)

(a) Except as stated in paragraph (b) of this clause, when any supply or service acquired under this contract is subject to any End User License Agreement (EULA), Terms of Service (TOS), or similar legal instrument or agreement, that includes any clause requiring the Government to indemnify the Contractor or any person or entity for damages, costs, fees, or any other loss or liability that would create an Anti-Deficiency Act violation (31 U.S.C. 1341), the following shall govern:

(1) Any such clause is unenforceable against the Government.

(2) Neither the Government nor any Government authorized end user shall be deemed to have agreed to such clause by virtue of it appearing in the EULA, TOS, or similar legal instrument or agreement. If the EULA, TOS, or similar legal instrument or agreement is invoked through an "I agree" click box or other comparable mechanism (e.g., "click-wrap" or "browse-wrap" agreements), execution does not bind the Government or any Government authorized end user to such clause.

(3) Any such clause is deemed to be stricken from the EULA, TOS, or similar legal instrument or agreement.

(b) Paragraph (a) of this clause does not apply to indemnification by the Government that is expressly authorized by statute and specifically authorized under applicable agency regulation and procedures.

52.233-1 DISPUTES ALTERNATE I (MAY 2014)

(a) This contract is subject to 41 U.S.C. chapter 71, Contract Disputes.

(b) Except as provided in 41 U.S.C. chapter 71, all disputes arising under or relating to this contract shall be resolved under this clause.

(c) "Claim," as used in this clause, means a written demand or written assertion by one of the contracting parties seeking, as a matter of right, the payment of money in a sum certain, the adjustment or interpretation of contract terms, or other relief arising under or relating to this contract. However, a written demand or written assertion by the Contractor seeking the payment of money exceeding \$100,000 is not a claim under 41 U.S.C. chapter 71 until certified. A voucher, invoice, or other routine request for payment that is not in dispute when submitted is not a claim under 41 U.S.C. chapter 71. The submission may be converted to a claim under 41 U.S.C. chapter 71, by complying with the submission and certification requirements of this clause, if it is disputed either as to liability or amount or is not acted upon in a reasonable time.

(d)

(1) A claim by the Contractor shall be made in writing and, unless otherwise stated in this contract, submitted within 6 years after accrual of the claim to the Contracting Officer for a written decision. A claim by the Government against the Contractor shall be subject to a written decision by the Contracting Officer.

(2)

(i) The contractor shall provide the certification specified in paragraph (d)(2)(iii) of this clause when submitting any claim exceeding \$100,000.

(ii) The certification requirement does not apply to issues in controversy that have not been submitted as all or part of a claim.

(iii) The certification shall state as follows: "I certify that the claim is made in good faith; that the supporting data are accurate and complete to the best of my knowledge and belief; that the amount requested accurately reflects the contract adjustment for which the Contractor believes the Government is liable; and that I am authorized to certify the claim on behalf of the Contractor."

(3) The certification may be executed by any person authorized to bind the Contractor with respect to the claim.

(e) For Contractor claims of \$100,000 or less, the Contracting Officer must, if requested in writing by the Contractor, render a decision within 60 days of the request. For Contractor-certified claims over \$100,000, the Contracting Officer must, within 60 days, decide the claim or notify the Contractor of the date by which the decision will be made.

(f) The Contracting Officer's decision shall be final unless the Contractor appeals or files a suit as provided in 41 U.S.C. chapter 71.

(g) If the claim by the Contractor is submitted to the Contracting Officer or a claim by the Government is presented to the Contractor, the parties, by mutual consent, may agree to use alternative dispute resolution (ADR). If the Contractor refuses an offer for ADR, the Contractor shall inform the Contracting Officer, in writing, of the Contractor's specific reasons for rejecting the offer.

(h) The Government shall pay interest on the amount found due and unpaid from

(1) the date that the Contracting Officer receives the claim (certified, if required); or

(2) the date that payment otherwise would be due, if that date is later, until the date of payment.

With regard to claims having defective certifications, as defined in FAR 33.201, interest shall be paid from the date that the Contracting Officer initially receives the claim. Simple interest on claims shall be paid at the rate, fixed by the Secretary of the Treasury as provided in the Act, which is applicable to the period during which the Contracting Officer receives the claim and then at the rate applicable for each 6-month period as fixed by the Treasury Secretary during the pendency of the claim.

(i) The Contractor shall proceed diligently with performance of this contract, pending final resolution of any request for relief, claim, appeal, or action arising under or relating to the contract, and comply with any decision of the Contracting Officer.

FAR 52.233-3 PROTEST AFTER AWARD (AUG 1996)

(a) Upon receipt of a notice of protest (as defined in FAR 33.101) or a determination that a protest is likely (see FAR 33.102(d)), the Contracting Officer may, by written order to the Contractor, direct the Contractor to stop performance of the work called for by this contract. The order shall be specifically identified as a stop-work order issued under this clause. Upon receipt of the order, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stoppage. Upon receipt of the final decision in the protest, the Contracting Officer shall either --

(1) Cancel the stop-work order; or

(2) Terminate the work covered by the order as provided in the Default, or the Termination for Convenience of the Government, clause of this contract.

(b) If a stop-work order issued under this clause is canceled either before or after a final decision in the protest, the Contractor shall resume work. The Contracting Officer shall make an equitable adjustment in the delivery schedule or contract price, or both, and the contract shall be modified, in writing, accordingly, if --

(1) The stop-work order results in an increase in the time required for, or in the Contractor's cost properly allocable to, the performance of any part of this contract; and

(2) The Contractor asserts its right to an adjustment within 30 days after the end of the period of work stoppage; provided, that if the Contracting Officer decides the facts justify the action, the Contracting Officer may receive and act upon a proposal at any time before final payment under this contract.

(c) If a stop-work order is not canceled and the work covered by the order is terminated for the convenience of the Government, the Contracting Officer shall allow reasonable costs resulting from the stop-work order in arriving at the termination settlement.

(d) If a stop-work order is not canceled and the work covered by the order is terminated for default, the Contracting Officer shall allow, by equitable adjustment or otherwise, reasonable costs resulting from the stop-work order.

(e) The Government's rights to terminate this contract at any time are not affected by action taken under this clause.

(f) If, as the result of the Contractor's intentional or negligent misstatement, misrepresentation, or miscertification, a protest related to this contract is sustained, and the Government pays costs, as provided in FAR 33.102(b)(2) or 33.104(h)(1), the Government may require the Contractor to reimburse the Government the amount of such costs. In addition to any other remedy available, and pursuant to the requirements of Subpart 32.6, the Government may collect this debt by offsetting the amount against any payment due the Contractor under any contract between the Contractor and the Government.

FAR 52.233-4 APPLICABLE LAW FOR BREACH OF CONTRACT CLAIM (OCT 2004)

date on which the bankruptcy petition was filed, the identity of the court in which the bankruptcy petition was filed, and a listing of Government contract numbers and contracting offices for all Government contracts against which final payment has not been made. This obligation remains in effect until final payment under this contract.

(j) *Contractor inventory disposal.* Except as otherwise provided for in this contract, the Contractor shall not dispose of Contractor inventory until authorized to do so by the Plant Clearance Officer or authorizing official.

(1) *Predisposal requirements.*

(i) If the Contractor determines that the property has the potential to fulfill requirements under other contracts, the Contractor, in consultation with the Property Administrator, shall request that the Contracting Officer transfer the property to the contract in question, or provide authorization for use, as appropriate. In lieu of transferring the property, the Contracting Officer may authorize the Contractor to credit the costs of Contractor-acquired property (material only) to the losing contract, and debit the gaining contract with the corresponding cost, when such material is needed for use on another contract. Property no longer needed shall be considered contractor inventory.

(ii) For any remaining Contractor-acquired property, the Contractor may purchase the property at the unit acquisition cost if desired or make reasonable efforts to return unused property to the appropriate supplier at fair market value (less, if applicable, a reasonable restocking fee that is consistent with the supplier's customary practices.)

(2) *Inventory disposal schedules.*

(i) Absent separate contract terms and conditions for property disposition, and provided the property was not reutilized, transferred, or otherwise disposed of, the Contractor, as directed by the Plant Clearance Officer or authorizing official, shall

use Standard Form 1428, Inventory Disposal Schedule or electronic equivalent, to identify and report—

(A) Government-furnished property that is no longer required for performance of this contract;

(B) Contractor-acquired property, to which the Government has obtained title under paragraph (e) of this clause, which is no longer required for performance of that contract; and

(C) Termination inventory.

(ii) The Contractor may annotate inventory disposal schedules to identify property the Contractor wishes to purchase from the Government, in the event that the property is offered for sale.

(iii) Separate inventory disposal schedules are required for aircraft in any condition, flight safety critical aircraft parts, and other items as directed by the Plant Clearance Officer

(iv) The Contractor shall provide the information required by FAR 52.245-1(f)(1)(iii) along with the following:

(A) Any additional; information that may facilitate understanding of the property's intended use.

(B) For work-in-progress, the estimated percentage of completion.

(C) For precious metals in raw or bulk form, the type of metal and estimated weight.

(D) For hazardous material or property contaminated with hazardous material, the type of hazardous material.

(E) For metals in mill product form, the form, shape, treatment, hardness, temper, specification (commercial or Government) and dimensions (thickness, width and length).

(v) Property with the same description, condition code, and reporting location may be grouped in a single line item.

(vi) Scrap should be reported by "lot" along with metal content, estimated weight and estimated value.

(3) *Submission requirements.*

(i) The Contractor shall submit inventory disposal schedules to the Plant Clearance Officer no later than—

(A) 30 days following the Contractor's determination that a property item is no longer required for performance of this contract;

(B) 60 days, or such longer period as may be approved by the Plant Clearance Officer, following completion of contract deliveries or performance; or

(C) 120 days, or such longer period as may be approved by the Termination Contracting Officer, following contract termination in whole or in part.

(ii) Unless the Plant Clearance Officer determines otherwise, the Contractor need not identify or report production scrap on inventory disposal schedules, and may process and dispose of production scrap in accordance with its own internal scrap procedures. The processing and disposal of other types of Government-owned scrap will be conducted in accordance with the terms and conditions of the contract or Plant Clearance Officer direction, as appropriate.

(4) *Corrections.* The Plant Clearance Officer may—

(i) Reject a schedule for cause (*e.g.*, contains errors, determined to be inaccurate); and

(ii) Require the Contractor to correct an inventory disposal schedule.

(5) *Postsubmission adjustments.* The Contractor shall notify the Plant Clearance Officer at least 10 working days in advance of its intent to remove an item from an approved inventory disposal schedule. Upon approval of the Plant Clearance Officer, or upon expiration of the notice period, the Contractor may make the necessary adjustments to the inventory schedule.

(6) *Storage.*

(i) The Contractor shall store the property identified on an inventory disposal schedule pending receipt of disposal instructions. The Government's failure to furnish disposal instructions within 120 days following acceptance of an inventory disposal schedule may entitle the Contractor to an equitable adjustment for costs incurred to store such property on or after the 121st day.

(ii) The Contractor shall obtain the Plant Clearance Officer's approval to remove property from the premises where the property is currently located prior to receipt of final disposition instructions. If approval is granted, any costs incurred by the Contractor to transport or store the property shall not increase the price or fee of

any Government contract. The storage area shall be appropriate for assuring the property's physical safety and suitability for use. Approval does not relieve the Contractor of any liability for such property under this contract.

(7) Disposition instructions.

(i) The Contractor shall prepare for shipment, deliver f.o.b. origin, or dispose of Contractor inventory as directed by the Plant Clearance Officer. Unless otherwise directed by the Contracting Officer or by the Plant Clearance Officer, the Contractor shall remove and destroy any markings identifying the property as U.S. Government-owned property prior to its disposal.

(ii) The Contracting Officer may require the Contractor to demilitarize the property prior to shipment or disposal. In such cases, the Contractor may be entitled to an equitable adjustment under paragraph (i) of this clause.

(8) Disposal proceeds. As directed by the Contracting Officer, the Contractor shall credit the net proceeds from the disposal of Contractor inventory to the contract, or to the Treasury of the United States as miscellaneous receipts.

(9) Subcontractor inventory disposal schedules. The Contractor shall require its Subcontractors to submit inventory disposal schedules to the Contractor in accordance with the requirements of paragraph (j)(3) of this clause.

(k) Abandonment of Government property.

(1) The Government shall not abandon sensitive property or termination inventory without the Contractor's written consent.

(2) The Government, upon notice to the Contractor, may abandon any nonsensitive property in place, at which time all obligations of the Government regarding such property shall cease.

(3) Absent contract terms and conditions to the contrary, the Government may abandon parts removed and replaced from property as a result of normal maintenance actions, or removed from property as a result of the repair, maintenance, overhaul, or modification process.

(4) The Government has no obligation to restore or rehabilitate the Contractor's premises under any circumstances; however, if Government-furnished property is withdrawn or is unsuitable for the intended use, or if other Government property is substituted, then the equitable adjustment under paragraph (i) of this clause may properly include restoration or rehabilitation costs.

(l) Communication. All communications under this clause shall be in writing.

(m) *Contracts outside the United States.* If this contract is to be performed outside of the United States and its outlying areas, the words “Government” and “Government-furnished” (wherever they appear in this clause) shall be construed as “United States Government” and “United States Government-furnished,” respectively.

FAR 52.245-9 – USE AND CHARGES (APR 2012)

(a) *Definitions.* Definitions applicable to this contract are provided in the clause at 52.245-1, Government Property. Additional definitions as used in this clause include:

“Rental period” means the calendar period during which Government property is made available for nongovernmental purposes.

“Rental time” means the number of hours, to the nearest whole hour, rented property is actually used for nongovernmental purposes. It includes time to set up the property for such purposes, perform required maintenance, and restore the property to its condition prior to rental (less normal wear and tear).

(b) *Use of Government property.* The Contractor may use the Government property without charge in the performance of—

- (1) Contracts with the Government that specifically authorize such use without charge;
- (2) Subcontracts of any tier under Government prime contracts if the Contracting Officer having cognizance of the prime contract—
 - (i) Approves a subcontract specifically authorizing such use; or
 - (ii) Otherwise authorizes such use in writing; and
- (3) Other work, if the Contracting Officer specifically authorizes in writing use without charge for such work.

(c) *Rental.* If granted written permission by the Contracting Officer, or if it is specifically provided for in the Schedule, the Contractor may use the Government property (except material) for a rental fee for work other than that provided in paragraph (b) of this clause. Authorizing such use of the Government property does not waive any rights of the Government to terminate the Contractor’s right to use the Government property. The rental fee shall be determined in accordance with the following paragraphs.

(d) *General.*

- (1) Rental requests shall be submitted to the Administrative Contracting Officer (ACO), identify the property for which rental is requested, propose a rental period, and compute an estimated rental charge by using the Contractor’s best estimate of rental time in the formulae described in paragraph (e) of this clause.

(2) The Contractor shall not use Government property for nongovernmental purposes, including Independent Research and Development, until a rental charge for real property, or estimated rental charge for other property, is agreed upon. Rented property shall be used only on a non-interference basis.

(e) *Rental charge.*—

(1) *Real property and associated fixtures.*

(i) The Contractor shall obtain, at its expense, a property appraisal from an independent licensed, accredited, or certified appraiser that computes a monthly, daily or hourly rental rate for comparable commercial property. The appraisal may be used to compute rentals under this clause throughout its effective period or, if an effective period is not stated in the appraisal, for one year following the date the appraisal was performed. The Contractor shall submit the appraisal to the ACO at least 30 days prior to the date the property is needed for nongovernmental use. Except as provided in paragraph (e)(1)(iii) of this clause, the ACO shall use the appraisal rental rate to determine a reasonable rental charge.

(ii) Rental charges shall be determined by multiplying the rental time by the appraisal rental rate expressed as a rate per hour. Monthly or daily appraisal rental rates shall be divided by 720 or 24, respectively, to determine an hourly rental rate.

(iii) When the ACO believes the appraisal rental rate is unreasonable, the ACO shall promptly notify the Contractor. The parties may agree on an alternative means for computing a reasonable rental charge.

(iv) The Contractor shall obtain, at its expense, additional property appraisals in the same manner as provided in paragraph (e)(1)(i) if the effective period has expired and the Contractor desires the continued use of property for nongovernmental use. The Contractor may obtain additional appraisals within the effective period of the current appraisal if the market prices decrease substantially.

(2) *Other Government property.* The Contractor may elect to compute the rental charge using the appraisal method described in paragraph (e)(1) of this clause subject to the constraints therein or the following formula in which rental time shall be expressed in increments of not less than one hour with portions of hours rounded to the next higher hour: The hourly rental charge is calculated by multiplying 2 percent of the acquisition cost by the hours of rental time, and dividing by 720.

(3) *Alternative methodology.* The Contractor may request consideration of an alternative basis for computing the rental charge if it considers the monthly rental rate or a time-based rental unreasonable or impractical.

(f) *Rental payments.*

(1) Rent is due 60 days following completion of the rental period or as otherwise specified in the contract. The Contractor shall compute the rental due, and furnish records or other supporting data in sufficient detail to permit the ACO to verify the rental time and computation. Payment shall be made by check payable to the Treasurer of the United States and sent to the contract administration office identified in the contract, unless otherwise specified by the Contracting Officer.

(2) Interest will be charged if payment is not made by the date specified in paragraph (f)(1) of this clause. Interest will accrue at the “Renegotiation Board Interest Rate” (published in the *Federal Register* semiannually on or about January 1st and July 1st) for the period in which the rent is due.

(3) The Government’s acceptance of any rental payment under this clause, in whole or in part, shall not be construed as a waiver or relinquishment of any rights it may have against the Contractor stemming from the Contractor’s unauthorized use of Government property or any other failure to perform this contract according to its terms

(g) *Use revocation.* At any time during the rental period the Government may revoke nongovernmental use authorization and require the Contractor, at the Contractor’s expense, to return the property to the Government, restore the property to its pre-rental condition (less normal wear and tear), or both.

(h) *Unauthorized use.* The unauthorized use of Government property can subject a person to fines, imprisonment, or both under 18 U.S.C. 641.

(b) *Adequate security.* The Contractor shall provide adequate security on all covered contractor information systems. To provide adequate security, the Contractor shall implement, at a minimum, the following information security protections:

(1) For covered contractor information systems that are part of an Information Technology (IT) service or system operated on behalf of the Government, the following security requirements apply:

(i) Cloud computing services shall be subject to the security requirements specified in the clause [252.239-7010](#), Cloud Computing Services, of this contract.

(ii) Any other such IT service or system (i.e., other than cloud computing) shall be subject to the security requirements specified elsewhere in this contract.

(2) For covered contractor information systems that are not part of an IT service or system operated on behalf of the Government and therefore are not subject to the security requirement specified at paragraph (b)(1) of this clause, the following security requirements apply:

(i) Except as provided in paragraph (b)(2)(ii) of this clause, the covered contractor information system shall be subject to the security requirements in National Institute of Standards and Technology (NIST) Special Publication (SP) 800-171, "Protecting Controlled Unclassified Information in Nonfederal Information Systems and Organizations" (available via the internet at <http://dx.doi.org/10.6028/NIST.SP.800-171>) in effect at the time the solicitation is issued or as authorized by the Contracting Officer.

The Contractor need not implement any security requirement adjudicated by an authorized representative of the DoD CIO to be nonapplicable or to have an alternative, but equally effective, security measure that may be implemented in its place.

(C) If the DoD CIO has previously adjudicated the contractor's requests indicating that a requirement is not applicable or that an alternative security

measure is equally effective, a copy of that approval shall be provided to the Contracting Officer when requesting its recognition under this contract.

(D) If the Contractor intends to use an external cloud service provider to store, process, or transmit any covered defense information in performance of this contract, the Contractor shall require and ensure that the cloud service provider meets security requirements equivalent to those established by the Government for the Federal Risk and Authorization Management Program (FedRAMP) Moderate baseline (<https://www.fedramp.gov/resources/documents/>) and that the cloud service provider complies with requirements in paragraphs (c) through (g) of this clause for cyber incident reporting, malicious software, media preservation and protection, access to additional information and equipment necessary for forensic analysis, and cyber incident damage assessment.

(3) Apply other information systems security measures when the Contractor reasonably determines that information systems security measures, in addition to those identified in paragraphs (b)(1) and (2) of this clause, may be required to provide adequate security in a dynamic environment or to accommodate special circumstances (e.g., medical devices) and any individual, isolated, or temporary deficiencies based on an assessed risk or vulnerability. These measures may be addressed in a system security plan.

(c) Cyber incident reporting requirement.

(1) When the Contractor discovers a cyber incident that affects a covered contractor information system or the covered defense information residing therein, or that affects the contractor's ability to perform the requirements of the contract that are designated as operationally critical support and identified in the contract, the

Contractor shall—

(i) Conduct a review for evidence of compromise of covered defense information, including, but not limited to, identifying compromised computers, servers, specific data, and user accounts. This review shall also include analyzing covered contractor information system(s) that were part of the cyber incident, as well as other information systems on the Contractor's network(s), that may have been accessed as a result of the incident in order to identify compromised covered defense information, or that affect the Contractor's ability to provide operationally critical support; and

(ii) Rapidly report cyber incidents to DoD at <http://dibnet.dod.mil>.

(2) *Cyber incident report.* The cyber incident report shall be treated as information created by or for DoD and shall include, at a minimum, the required elements at <http://dibnet.dod.mil>.

(3) *Medium assurance certificate requirement.* In order to report cyber incidents in accordance with this clause, the Contractor or subcontractor shall have or acquire a DoD-

approved medium assurance certificate to report cyber incidents. For information on obtaining a DoD-approved medium assurance certificate, see

Do not send the malicious software to the Contracting Officer.

(e) *Media preservation and protection.* When a Contractor discovers a cyber incident has occurred, the Contractor shall preserve and protect images of all known affected information systems identified in paragraph (c)(1)(i) of this clause and all relevant monitoring/packet capture data for at least 90 days from the submission of the cyber incident report to allow DoD to request the media or decline interest.

(f) *Access to additional information or equipment necessary for forensic analysis.* Upon request by DoD, the Contractor shall provide DoD with access to additional information or equipment that is necessary to conduct a forensic analysis.

(g) *Cyber incident damage assessment activities.* If DoD elects to conduct a damage assessment, the Contracting Officer will request that the Contractor provide all of the damage assessment information gathered in accordance with paragraph (e) of this clause.

(h) *DoD safeguarding and use of contractor attributional/proprietary information.* The Government shall protect against the unauthorized use or release of information obtained from the contractor (or derived from information obtained from the contractor) under this clause that includes contractor attributional/proprietary information, including such information submitted in accordance with paragraph (c). To the maximum extent practicable, the Contractor shall identify and mark attributional/proprietary information. In making an authorized release of such information, the Government will implement appropriate procedures to minimize the contractor attributional/proprietary information that is included in such authorized release, seeking to include only that information that is necessary for the authorized purpose(s) for which the information is being released.

(i) *Use and release of contractor attributional/proprietary information not created by or for DoD.* Information that is obtained from the contractor (or derived from information obtained from the contractor) under this clause that is not created by or for DoD is authorized to be released outside of DoD—

(5) To a support services contractor (“recipient”) that is directly supporting Government activities under a contract that includes the clause at [252.204-7009](#), Limitations on the Use or Disclosure of Third-Party Contractor Reported Cyber Incident Information.

(j) *Use and release of contractor attributional/proprietary information created by or for DoD.* Information that is obtained from the contractor (or derived from information obtained from the contractor) under this clause that is created by or for DoD (including the information submitted pursuant to paragraph (c) of this clause) is authorized to be used and released outside of DoD for purposes and activities authorized by paragraph (i) of this clause, and for any other lawful Government purpose or activity, subject to all applicable statutory, regulatory, and policy based restrictions on the Government’s use and release of such information.

(k) The Contractor shall conduct activities under this clause in accordance with applicable laws and regulations on the interception, monitoring, access, use, and disclosure of electronic communications and data.

(l) *Other safeguarding or reporting requirements.* The safeguarding and cyber incident reporting required by this clause in no way abrogates the Contractor’s responsibility for other safeguarding or cyber incident reporting pertaining to its unclassified information systems as required by other applicable clauses of this contract, or as a result of other applicable U.S. Government statutory or regulatory requirements.

(m) *Subcontracts.* The Contractor shall—

(1) Include this clause, including this paragraph (m), in subcontracts, or similar contractual instruments, for operationally critical support, or for which subcontract performance will involve covered defense information, including subcontracts for commercial items, without alteration, except to identify the parties. The Contractor shall determine if the information required for subcontractor performance retains its identity as covered defense information and will require protection under this clause, and, if necessary, consult with the Contracting Officer; and

(2) Require subcontractors to—

(i) Notify the prime Contractor (or next higher-tier subcontractor) when submitting a request to vary from a NIST SP 800-171 security requirement to the Contracting Officer, in accordance with paragraph (b)(2)(ii)(B) of this clause; and

(ii) Provide the incident report number, automatically assigned by DoD, to the prime Contractor (or next higher-tier subcontractor) as soon as practicable, when reporting a cyber incident to DoD as required in paragraph (c) of this clause.

(C) The Purchaser agrees to assume all costs incident to the demilitarization and to restore the working area to its present condition after removing the demilitarized property.

	ITEM DESCRIPTION	CONTRACT LINE ITEMS	QUANTITY
TOTAL			

(g) If this contract exceeds the simplified acquisition threshold and the final invoice does not include the required representation, the Government will reject and return it to the Contractor as an improper invoice for the purposes of the Prompt Payment clause of this contract. In the event there has been unauthorized use of foreign-flag vessels in the performance of this contract, the Contracting Officer is entitled to equitably adjust the contract, based on the unauthorized use.

DLAD 52.204-9000 CONTRACTOR PERSONNEL SECURITY REQUIREMENTS (JUL 2015)

(a) Work to be performed under this contract or task order may, in full or in part, be performed at the Defense Logistics Agency (DLA) Headquarters (HQ), DLA field activity office(s), or other Federally-controlled facilities. Prior to beginning work on a contract, DLA requires all Contractor personnel working on the Federally-controlled facility to have, at a minimum, an initiated National Agency Check with Written Inquiries (NACI) or NACI equivalent and favorable completion of a Federal Bureau of Investigation (FBI) fingerprint check.

(b) Additionally, in accordance with Department of Defense (DoD) Regulation 5200.2-R, Personnel Security Programs, and DLA Issuance 4314, Personnel Security Program, all DoD Contractor personnel who have access to Federally-controlled information systems must be assigned to positions which are designated at one of three information technology (IT) levels, each requiring a certain level of investigation and clearance, as follows:

(1) IT-I for an IT position requiring a single scope background investigation (SSBI) or SSBI equivalent;

(2) IT-II for an IT position requiring a National Agency check with Law and Credit (NACLC) or NACLC equivalent; and

(3) IT-III for an IT position requiring a NACI or equivalent.

Note: IT levels will be designated according to the criteria in DoD 5200.2-R.

(c) Previously completed security investigations may be accepted by the Government in lieu of new investigations if determined by the DLA Intelligence Personnel Security Office to be essentially equivalent in scope to the contract requirements. The length of time elapsed since the previous investigation will also be considered in determining whether a new investigation is warranted. To assist the Government in making this determination, the Contractor must provide the following information to the respective DLA Intelligence Personnel Security Office immediately upon receipt of the contract. This information must be provided for each Contractor employee who will perform work on a Federally-controlled facility and/or will require access to Federally-controlled information systems:

(1) Full name, with middle name, as applicable, with social security number;

(2) Citizenship status with date and place of birth;

(3) Proof of the individual's favorably adjudicated background investigation or NACI, consisting of identification of the type of investigation performed, date of the favorable adjudication, name of the agency that made the favorable adjudication, and name of the agency that performed the investigation;

(4) Company name, address, phone and fax numbers with email address;

(5) Location of on-site workstation or phone number if off-site (if known by the time of award); and

(6) Delivery order or contract number and expiration date; and name of the Contracting Officer.

(d) The Contracting Officer will ensure that the Contractor is notified as soon as a determination is made by the assigned or cognizant DLA Intelligence Personnel Security Office regarding acceptance of the previous investigation and clearance level.

(1) If a new investigation is deemed necessary, the Contractor and Contracting Officer will be notified by the respective DLA Personnel Security Office after appropriate checks in DoD databases have been made.

(2) If the Contractor employee requires access to classified information and currently does not have the appropriate clearance level and/or an active security clearance, the DLA Intelligence Personnel Security Office will relay this information to the Contractor and Contracting Officer for further action. Investigations for Contractor employees requiring access to classified information must be initiated by the Contractor Facility Security Officer (FSO).

(3) The Contracting Officer will ensure that the respective DLA Intelligence Personnel Security Office initiates investigations for Contractor employees not requiring access to

classified information (i.e., IT or unescorted entry).

(4) It is the Contractor's responsibility to ensure that adequate information is provided and that each Contractor employee completes the appropriate paperwork, as required either by the Contracting Officer or the DLA Intelligence Personnel Security Office, in order to begin the investigation process for the required clearance level.

(e) The Contractor is responsible for ensuring that each Contractor employee assigned to the position has the appropriate security clearance level.

(f) The Contractor shall submit each request for IT access and investigation through the Contracting Officer to the assigned or cognizant DLA Intelligence Personnel Security Office. Requests shall include the following information and/or documentation:

(1) Standard Form (SF) 85, Questionnaire for Non-Sensitive Positions, or the SF 86, Questionnaire for National Security Positions (see note below);

(2) Proof of citizenship (i.e., an original or a certified copy of a birth certificate, passport, or naturalization certificate); and

(3) Form FD-258, Fingerprint Card (however, fingerprinting can be performed by the cognizant DLA Intelligence Personnel Security Office).

(Note to (f)(1) above: An investigation request is facilitated through use of the SF 85 or the SF 86. These forms with instructions as well as the Optional Form (OF) 306, Declaration for Federal Employment, which is required with submission of the SF85 or SF 86, are available at the Office of Personnel Management's (OPM) system called Electronic – Questionnaires for Investigations Processing (e-QIP). Hard copies of the SF85 and SF86 are available at OPM's web-site, www.opm.gov, but hard copies of the forms are not accepted.)

(g) Required documentation, listed above in paragraphs (f) (1) through (3), must be provided by the Contractor as directed by the Contracting Officer to the cognizant DLA Intelligence Personnel Security Office at the time of fingerprinting or prior to the DLA Intelligence Personnel Security Office releasing the investigation to OPM.

(h) Upon completion of the NACI, NACLIC, SSBI, or other sufficient, appropriate investigation, the results of the investigation will be forwarded by OPM to the appropriate adjudication facility for eligibility determination or the DLA Intelligence Personnel Security Office for review and determination regarding the applicant's suitability to occupy an unescorted entry position in performance of the DLA contract. Contractor personnel shall not commence work on this effort until the investigation has been favorably adjudicated or the Contractor employee has been waived into the position pending completion of adjudication. The DLA Intelligence Personnel Security Office will ensure that results of investigations will be sent by OPM to the Department of Defense, Consolidated Adjudications Facility (DoD CAF) or DLA Intelligence Personnel Security Office.

(i) A waiver for IT level positions to allow assignment of an individual Contractor employee to commence work prior to completion of the investigation may be granted in emergency situations when it is determined that a delay would be harmful to national security. A request for waiver will be considered only after the Government is in receipt of the individual Contractor employee's completed forms, the background investigation has been initiated and

favorable FBI fingerprint check has been conducted. The request for a waiver must be approved by the Commander/Director or Deputy Commander/Director of the site. The cognizant DLA Intelligence Personnel Security Office reserves the right to determine whether a waiver request will be forwarded for processing. The individual Contractor employee for which the waiver is being requested may not be assigned to a position, that is, physically work at the Federally-controlled facility and/or be granted access to Federally-controlled information systems, until the waiver has been approved.

(j) The requirements of this clause apply to the prime Contractor and any subcontractors the prime Contractor may employ during the course of this contract, as well as any temporary employees that may be hired by the Contractor. The Government retains the right to request removal of Contractor personnel, regardless of prior clearance or adjudication status whose actions, while assigned to this contract, who are determined by the Contracting Officer to conflict with the interests of the Government. If such removal occurs, the Contractor shall assign qualified personnel, with the required investigation, to any vacancy.

(k) All Contractor personnel who are granted access to Government and/or Federally-controlled information systems shall observe all local automated information system (AIS) security policies and procedures. Violations of local AIS security policy, such as password sharing, performing personal work, file access violations, or browsing files outside the scope of the contract, will result in removal of the Contractor employee from Government property and referral to the Contractor for appropriate disciplinary action. Actions taken by the Contractor in response to a violation will be evaluated and will be reflected in the Contractor's performance assessment for use in making future source selection decisions. In addition, based on the nature and extent of any violations of AIS security policy, the Government will consider whether it needs to pursue any other actions under the contract such as a possible termination.

(l) The Contractor may also be required to obtain a Common Access Card (CAC) or Installation Access Badge for each Contractor employee in accordance with procedures established by DLA. When a CAC is required, the Contracting Officer will ensure that the Contractor follows the requirements of Homeland Security Presidential Directive 12 and any other CAC-related requirements in the contract. The Contractor shall provide, on a monthly basis, a listing of all personnel working under the contract that have CACs.

(m) Contractor personnel must additionally receive operations security (OPSEC) and information security (INFOSEC) awareness training. The DLA annual OPSEC refresher training and DLA annual INFOSEC training will satisfy these requirements and are available through the DLA Intelligence Office.

(n) When a Contractor employee who has been granted a clearance is removed from the contract, the Contractor shall provide an appropriately trained substitute who has met or will meet the investigative requirements of this clause. The substitute may not begin work on the contract without written documentation, signed by the Contracting Officer, stating that the new Contractor employee has met one of the criteria set forth in paragraphs (c), (d), or (i) of this clause, (i.e., acceptance of a previously completed security investigation, satisfactory

completion of a new investigation, or a waiver allowing work to begin pending completion of an investigation). Contractor individual employees removed from this contract as a result of a violation of local AIS security policy are removed for the duration of the contract.

(o) The following shall be completed for every employee of the Government Contractor working on this contract upon contract expiration. Additionally, the Contractor shall notify the contracting officer immediately in writing whenever a Contractor employee working on this contract resigns, is reassigned, is terminated or no longer requires admittance to the Federally-controlled facility or access to Federally-controlled information systems. When the Contractor employee departs, the Contractor will relay departure information to the cognizant DLA Intelligence Personnel Security Office and the Trusted Agent (TA) that entered the individual into the Trusted Associated Sponsorship System (TASS), so appropriate databases can be updated. The Contractor will ensure each departed employee has completed the DLA J6 Out-Processing Checklist, when applicable, for the necessary security briefing, has returned any Government-furnished equipment, returned the DoD CAC and DLA (or equivalent Installation) badge, returned any DoD or DLA vehicle decal, and requested deletion of local area network account with a prepared Department of Defense (DD) Form 2875. The Contractor will be responsible for any costs involved for failure to complete the out-processing, including recovery of Government property and investigation involved.

(p) These Contractor security requirements do not excuse the Contractor from meeting the delivery schedule/performance requirements set forth in the contract, or waive the delivery schedule/performance requirements in any way. The Contractor shall meet the required delivery schedule/performance requirements unless the contracting officer grants a waiver or extension.

(q) The Contractor shall not bill for personnel, who are not working on the contract while that Contractor employee's clearance investigation is pending.

DLAD 52.233-9001 DISPUTES-AGREEMENT TO USE ALTERNATIVE DISPUTE RESOLUTION (DEC 2016)

(a) The parties agree to negotiate with each other to try to resolve any disputes that may arise. If unassisted negotiations are unsuccessful, the parties will use alternative dispute resolution (ADR) techniques to try to resolve the dispute. Litigation will only be considered as a last resort when ADR is unsuccessful or has been documented by the party rejecting ADR to be inappropriate for resolving the dispute.

(b) Before either party determines ADR inappropriate, that party must discuss the use of ADR with the other party. The documentation rejecting ADR must be signed by an official authorized to bind the contractor (see FAR 52.233-1), or, for the Agency, by the contracting officer, and approved at a level above the contracting officer after consultation with the ADR Specialist and legal counsel. Contractor personnel are also encouraged to include the ADR Specialist in their discussions with the contracting officer before determining ADR to be inappropriate.

(c) If you wish to opt out of this clause, check here []. Alternate wording may be negotiated with the contracting officer.

(D) Have , have not , within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,500 for which the liability remains unsatisfied.

(1) Federal taxes are considered delinquent if both of the following criteria apply:

(i) *The tax liability is finally determined.* The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(ii) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(2) Examples.

(i) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(ii) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(iii) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(iv) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).

(ii) The Offeror has [] has not [], within a three-year period preceding this offer, had one or more contracts terminated for default by any Federal agency.

(b) The Offeror shall provide immediate written notice to the Contracting Officer if, at any time prior to contract award, the Offeror learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

(c) A certification that any of the items in paragraph (a) of this provision exists will not necessarily result in withholding of an award under this solicitation. However, the certification will be considered in connection with a determination of the Offeror’s responsibility. Failure of the Offeror to furnish a certification or provide such additional information as requested by the Contracting Officer may render the Offeror nonresponsible.

(d) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the certification required by paragraph (a) of this provision. The knowledge and information of an Offeror is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

(e) The certification in paragraph (a) of this provision is a material representation of fact upon which reliance was placed when making award. If it is later determined that the Offeror knowingly rendered an erroneous certification, in addition to other remedies available to the Government, the Contracting Officer may terminate the contract resulting from this solicitation for default.

(iii) The Government will evaluate offers in accordance with the policies and procedures of FAR Part 25. For line items covered by the WTO GPA, the Government will evaluate offers of U.S.-made or designated country end products without regard to the restrictions of the Buy American statute. The Government will consider for award only offers of U.S.-made or designated country end products unless the Contracting Officer determines that there are no offers for such products or that the offers for such products are insufficient to fulfill the requirements of the solicitation.

(h) *Certification Regarding Responsibility Matters (Executive Order 12689)*. (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals--

(1) Are, are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) Have, have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property; and

(3) Are, are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) Have, have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,500 for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) *The tax liability is finally determined.* The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) Examples.

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals Contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).

(b) *Requirement for submission of additional cost or pricing data.* Except as provided in paragraph (c) of this provision, the Offeror shall submit additional cost or pricing data as follows:

(2) *Exceptions from certified cost or pricing data.* In lieu of submitting certified cost or pricing data, the Offeror may submit a written request for exception by submitting the information described in the following paragraphs. The Contracting Officer may require additional supporting information, but only to the extent necessary to determine whether an exception should be granted, and whether the price is fair and reasonable.

(i) *Identification of the law or regulation establishing the price offered.* If the price is controlled under law by periodic rulings, reviews, or similar actions of a

governmental body, attach a copy of the controlling document, unless it was previously submitted to the contracting office.

(ii) *Commercial item exception.* For a commercial item exception, the Offeror shall submit, at a minimum, information on prices at which the same item or/ similar items have previously been sold in the commercial market that is adequate for evaluating the reasonableness of the price for this acquisition. Such information may include—

(A) For catalog items, a copy of or identification of the catalog and its date, or the appropriate pages for the offered items, or a statement that the catalog is on file in the buying office to which the proposal is being submitted. Provide a copy or describe current discount policies and price lists (published or unpublished), *e.g.*, wholesale, original equipment manufacturer, or reseller. Also explain the basis of each offered price and its relationship to the established catalog price, including how the proposed price relates to the price of recent sales in quantities similar to the proposed quantities;

(B) For market-priced items, the source and date or period of the market quotation or other basis for market price, the base amount, and applicable discounts. In addition, describe the nature of the market; or

(C) For items included on an active Federal Supply Service Multiple Award Schedule contract, proof that an exception has been granted for the schedule item.

(3) The Offeror grants the Contracting Officer or an authorized representative the right to examine, at any time before award, books, records, documents, or other directly pertinent records to verify any request for an exception under this provision, and the reasonableness of price. For items priced using catalog or market prices, or law or regulation, access does not extend to cost or profit information or other data relevant solely to the Offeror's determination of the prices to be offered in the catalog or marketplace.

(4) *Requirements for certified cost or pricing data.* If the Offeror is not granted an exception from the requirement to submit certified cost or pricing data, the following applies:

(i) The Offeror shall prepare and submit certified cost or pricing data and supporting attachments in accordance with the instructions contained in Table 15-2 of FAR 15.408, which is incorporated by reference with the same force and effect as though it were inserted here in full text. The instructions in Table 15-2 are incorporated as a mandatory format to be used, unless the Contracting Officer and the Offeror agree to a different format.

(4) As specified in FAR 15.403-3(a)(4), an offeror who does not comply with a requirement to submit data that the U.S. Contracting Officer has deemed necessary to determine price reasonableness or cost realism is ineligible for award unless the head of the contracting activity determines that it is in the best interest of the Government to make the award to that offeror.

(d) If negotiations are conducted, the negotiated price should not exceed the offered price.

L-0001-L1.02 PROPOSAL ACCEPTANCE PERIOD (DLA ENERGY NOV 1991)

SECTION M – EVALUATION FACTORS FOR AWARD

FAR 52.212-2 EVALUATION – COMMERCIAL ITEMS (OCT 2014)

(a) Basis for Award. The Government will award a contract resulting from this solicitation to the responsible offeror whose offer, conforming to the solicitation will be most advantageous to the Government. Formal source selection procedures will be used for this procurement. As such this is a best value acquisition, employing a Lowest Price Technically Acceptable process in accordance with FAR 15.101-2. The following factors shall be used to evaluate offers:

Factor 1-Technical/Management

1. Storage Tank Requirements
2. Physical System Requirements
3. Dock and Pier Requirements
4. Product Receiving
5. Product Shipping
6. Laboratory Testing Requirement

Factor 2-Past Performance

Factor 3- Price.

Proposals submitted in response to this solicitation should be prepared in accordance with the ADDENDUM to FAR 52.212-1 INSTRUCTIONS TO OFFERS – COMMERCIAL ITEMS (AUG 2018) provision, and will be evaluated by a board of one or more Government personnel. The Source Selection Authority shall make a final selection based on each offeror's ability to satisfy the requirements of the solicitation.

The offeror's proposal will be evaluated against the Government's requirements as stated in the solicitation and the PWS to determine whether the proposal is acceptable or unacceptable, using

the ratings and descriptions outlined in Section M – EVALUATION FACTORS FOR AWARD, FAR 52.212-2 EVALUATION –COMMERCIAL ITEMS (OCT 2014) of the solicitation.

FACTOR 1: TECHNICAL /MANAGEMENT

The Government will evaluate the Technical/Management factor on an Acceptable/Unacceptable basis (See Table A-1). For purposes of this solicitation, Factor 1, Technical/Management and Factor 2, Past Performance are hereby combined to determine technical acceptability.

The Government will evaluate each offer based upon the offeror’s understanding of and capability to accomplish the work as stated in the solicitation. The offeror must demonstrate in its proposal a complete understanding of the Performance Work Statement provided in the solicitation. The technical proposal and the stated evaluation criteria are the sole basis on which the Government will evaluate the technical merits of what is offered, how the offeror’s claims of performance capacity are supported, and the ability of the offeror to perform in accordance with the requirements of the Performance Work Statement.

Within this factor, there are six (6) sub-factors. The ratings are established in accordance with Clause FAR 52.212-2 EVALUATION-COMMERCIAL ITEMS (OCT 2014) and DLA Energy Contract Text M-0003-M72-EVALUATION OF OFFERS (EXCEPTIONS/DEVIATIONS) (DLA Energy APR 1997). All six (6) sub-factors are equal in importance to each other. Each Technical/Management sub-factor will be rated either Acceptable or Unacceptable. After all sub-factors have been rated, an overall technical/management rating will be assigned to the proposals to assure technical capability.

Table A-1 Technical Acceptable/Unacceptable Ratings

RATINGS	DESCRIPTION
Acceptable	Proposal meets the requirements of the solicitation.
Unacceptable	Proposal does not meet the requirements of the solicitation.

Note: Any offeror who receives an overall Technical/Management rating of Unacceptable after final proposal revisions will not be eligible for an award.

To receive an overall Acceptable rating, the proposal must be rated Acceptable in all sub-factors. **The sub-factors under Factor 1 – Technical/Management (Table A-1.1) to be addressed in the Technical Proposal are as follows:**

Table A-1.1

SUB-FACTORS	ACCEPTABLE	UNACCEPTABLE
1. Storage Tank Requirement		
2. Physical System Requirements		
3. Dock and Pier Requirements		
4. Product Receiving

For purposes of this evaluation the following terms will have the following definitions:

IAW FAR 15.001 - Deficiency is a material failure of a proposal to meet a Government requirement or a combination of significant weaknesses in a proposal that increases the risk of unsuccessful contract performance to an unacceptable level.

IAW FAR 15.001 - Significant Weakness in the proposal is a flaw that appreciably increases the risk of unsuccessful contract performance.

IAW FAR 15.001 - Weakness means a flaw in the proposal that increases the risk of unsuccessful contract performance.

Planning Factor for Laboratory Testing Requirements is a range of 400,000 BBLs to 600,000 BBLs per 12-month period.

FACTOR 2 PAST PERFORMANCE

The SSEB (Contract Team) will review recent and relevant past performance information and determine its quality and usefulness as it applies to the procurement. Past Performance will be rated as either Acceptable or Unacceptable (See Table A-2).

Additionally, the Government may use any other data available, including but not limited to, the Past Performance Information Retrieval System (PPIRS), Federal Awardee Performance and Integrity Retrieval System (FAPIIS), Electronic Subcontract Reporting System (eSRS), or other databases; interviews with Program Managers, Contracting Officers, the Defense Contract Management Agency, past and present customers and their employees, other subcontractors, and any others who may have useful and relevant information.

Offerors are instructed to submit three (3) Past Performance Questionnaires that may include the performance still in progress, however, it should have a minimum of one (1) year of performance history and no more than three (3) years old from the closing date of this solicitation. The Government will evaluate the offeror's submitted past performance to include

questionnaires from three (3) current or previous contracts for relevancy based on how well the contractor performed on projects of similar dollar value, scope, and complexity. The Past Performance questionnaire located under Attachment B of this SSP will be used to solicit information from offeror's submitted references in the following areas: (1) Quality of Service, (2) Schedule, (3) Cost Controls, (4) Management of Key personnel, (5) Small Business (if applicable), (6) Regulatory Compliance, (7) Business Relationships.

Recency and Relevancy are evaluated as part of the Acceptable/Unacceptable ratings. Recent past performance is defined as past performance on contracts performed within the past three years. The evaluation will determine the degree to which a recent effort accomplished by the offeror is relevant to the effort to be acquired through this acquisition. In establishing what is relevant for the acquisition, consideration shall be given to those aspects of an offeror's contract history that would give the greatest ability to measure whether the offeror will satisfy the current procurement. This relevancy assessment shall measure the extent of similarity between the service effort, complexity, dollar value, contract type, and subcontract/teaming arrangements, and a measure of the likelihood that the past performance is an indicator of future performance.

Upon determining how recent past performance was, relevancy, and how well the offeror performed, past performance will be rated "Acceptable" or "Unacceptable" using the rating and descriptions outlined in the DoD Source Selection Procedures, dated April 1, 2016, Table A-2 as follows:

Table A-2

Past Performance Evaluation Ratings	
RATING	DESCRIPTION
Acceptable	Based on the offeror's performance record, the Government has a reasonable expectation that the offeror will successfully perform the required effort, or the offeror's performance record is unknown. (See note below)
Unacceptable	Based on the offeror's performance record, the Government does not have a reasonable expectation that the offeror will be able to successfully perform the required effort.

Note 1: The adjectival ratings Exceptional, Very Good, Satisfactory, Marginal, and Unacceptable reflect the ratings in the Contractor Performance Assessment Reporting System (CPARS). However, under the DoD's streamlined process for evaluating Past Performance under Lowest Price Technically Acceptable, ratings of Acceptable and Unacceptable must be used. The contracting officer has reviewed the CPARS rating standards and the Contractor Past Performance Questionnaire, Attachment V, and determined that CPARS and Questionnaire ratings of Exceptional, Very Good, Satisfactory and Marginal will equate to an Acceptable rating. Ratings of Unsatisfactory will equate to an Unacceptable rating.

A record of poor performance may be considered an indication that the offeror has failed to conform to contract requirements and/or to standards of good workmanship; adhere to contract schedules, including the administrative aspects of performance; provide reasonable and cooperative behavior and commitment to customer satisfaction; and/or display a business-like

concern for the interests of the customer. Offerors are advised that the Government may use past performance information obtained from centralized past performance databases and sources other than those identified by the offeror.

Note 2: In the case of an offeror without a record of relevant past performance or for whom information on past performance is not available or so sparse that no meaningful past performance rating can be reasonably assigned, the offeror may not be evaluated favorably or unfavorably on past performance (see FAR 15.305(a)(2)(iv)). Therefore, the offeror shall be determined to have Unknown (or Neutral) past performance. In the context of acceptability/unacceptability, a “Neutral” rating shall be considered “Acceptable.”

Evaluation for Joint Ventures and Teaming Arrangements will be performed by evaluating the performance of each partner in accordance with the procedures outlined above. The ratings for each partner will be combined and the Joint Venture or Teaming Arrangement will receive one rating. As a Joint Venture, each partner’s experience and past performance may be evaluated and weighted against their respective roles identified in the Joint Venture agreement. This evaluation may be combined for a final past performance rating.

Note 3: A proposal receiving a rating of Unacceptable in this factor after final proposal revisions will be ineligible for award.

FACTOR 3 PRICE

A Firm-Fixed-Price (FFP) contract will result from this solicitation. The Government will evaluate offers for award purposes IAW FAR 52.212-2 – Evaluation – Commercial Items as follows:

A fill capacity quantity of 59,000 barrels is required. Monthly Use Charges shall be based on this quantity. The Government shall have the right to utilize the total Fill Capacity of offered tanks at no increase to the offered storage charges.

The total Monthly Use Charge (MUCC) price offered for Contract Line Item Number (CLIN) 0001 (Base period, years 1-4) will be multiplied by 48 months to determine the total price for this performance period. The total MUCC price for the option period under CLIN 0002 (Option years 5-9) will be multiplied by 60 months to determine the total price for this performance period. The total amount calculated for the base period will then be added to the total calculated amounts for the option period.

Option (Extension Provision) price: In accordance with FAR 52.217-8, Option to Extend Services (NOV 1999), the Government has the unilateral right to extend any resulting contract under the same terms and conditions for a total of not more than six months. To account for the option period (s) possible under 52.217-8 (maximum of six months), the Government will evaluate the option to extend by adding six months of the Offeror’s option period to the Offeror’s total price.

Option price: In Accordance with FAR 52.217-9, Option to Extend the Term of the Contract

(MAR 2000), the Government may extend the term of this contract by written notice to the Contractor within thirty (30) days; provided the Government gives the contractor a preliminary written notice of its intent to extend at least sixty (60) days before the contract expires. The preliminary notice does not commit the Government to an extension. If the Government exercises this option, the extended contract shall be considered to include this option clause.

Excess Throughput (EXTP): For evaluation purposes EXTP will be evaluated at 100,000 U. S. Gallons multiplied by the unit price offered. The price offered for EXTP will be added to the Offeror's total price.

The lowest priced Offeror will be the Offeror with the lowest evaluated price (derived from CLINs 0001, 0002, extension price, and excess throughput) for the four (4) year base period, the five (5) year option period price, and the six-month extension period.

The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

The Government reserves the right to conduct a price realism analysis to determine whether the offeror understands the contract requirements. If a price realism analysis is performed and an offeror's price is determined to be unrealistic, the offeror's proposal will be ineligible for award.
Competitive Range:

If discussions are conducted, the Government will establish a competitive range comprised of all the highly rated proposals unless the competitive range is further reduced for purposes of efficiency in accordance with FAR 15.306(c)(2) - Exchanges with Offerors after Receipt of Proposals.

A written notice of acceptance of an offer, mailed, or otherwise furnished to the successful Offeror within the time for acceptance specified in the offer shall result in a binding contract without further actions by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

FAR 52.217-5 EVALUATION OF OPTIONS (JULY 1990)

Except when it is determined in accordance with FAR [17.206\(b\)](#) not to be in the Government's best interests, the Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. Evaluation of options will not obligate the Government to exercise the option(s).

M-0001-M72 EVALUATION OF OFFERS (EXCEPTIONS/DEVIATIONS) (DLA ENERGY APR 1997)

(a) Offerors are expected to submit offers in full compliance with all terms and conditions of this solicitation.

(b) Any exceptions/deviations to the terms and conditions of this solicitation will result in the Government's determination that either--

(1) The exception/deviation is material enough to warrant rejection of the offer in part or in full; or

(2) The exception/deviation is acceptable.

(c) If the exception/deviation is in reference to a specification contained in this solicitation and the offeror cannot supply product fully meeting the required specification(s), the product can be offered for consideration provided the offeror clearly indicates, by attachment to the offer, the extent to which any product offered differs from the required specification(s).

(d) If the exception/deviation is in reference to a particular test, inspection, or testing method contained in this solicitation, the offer can be considered provided the offeror clearly indicates, by attachment to the offer, the extent to which its offer differs from those requirements.

(e) If the exception/deviation is determined acceptable, offered prices may be adjusted, for evaluation purposes only, by the Government's best estimate of the quantitative impact of the advantage or disadvantage to the Government that might result from making an award under those circumstances.
